Christmas Message

Dear Loving Community,

“Do not be afraid, for behold, I bring you good tidings of great joy to all people. For there is born to you this day in the city of David a Saviour, Christ the Lord.” Luke 2:10-11

As we celebrate Christmas, I am delighted to extend my heartfelt greetings to everyone. Christmas is a time of immense joy and hope, reminding us that God sent His only Son into the world to provide us with eternal life through faith in Him. Christmas reminds us of our many gifts. I want to highlight the three amazing gifts we have been given as a CMC community - life, light, and presence. As we are surrounded by patients and their families seeking hope and healing, we must remember the value of these gifts.

Gift of Life (John 10:10): Jesus came to offer new life to all who believe in Him. His birth symbolizes new beginnings and a hopeful future for us. As healthcare workers, we have been entrusted with Jesus’ ministry to restore physical, emotional, and spiritual wellness to people's lives. We are privileged to witness the incredible gift of life, from newborn babies to the survival of those who have fought long battles with illness every day. So, let our mission continue to bring hope and healing to those in need.

Gift of Light (John 8:12): Jesus, the Light of the world, brings hope to those who live in darkness, as in Isaiah 9:2. As His Children, we have the power to shed light on the lives of those suffering from the sickness. We can be a beacon of hope, comfort, and strength for those in pain. Let our selfless service shine the light of God's love into the lives of those around us.

Gift of Presence (Matthew 1:23): Being with Jesus helps us experience God's presence. “Emmanuel, God with us” reminds us that we are never alone and have the privilege of collaborating with Him in His healing ministry. His presence gives us the strength and wisdom to face life's challenges. The most valuable gift we can offer to those in our care is our presence. By being there for them, we can reflect God's presence and be messengers of hope and inspiration, just like the angels who brought joy to the shepherds. May our hospital be a place of comfort for the distressed, companionship for the lonely, and restoration for the broken.

As a community, let us thank God for the gifts of life, the light of hope, and the presence of God given to us. As we thank, let us unite our efforts to provide hope, healing, and transformation to everyone who depends on us. And let us remember that the true meaning of Christmas is not found in the material gifts that we give and receive but in the spiritual gifts of love, forgiveness, and new life.

I wish you a blessed and Merry Christmas!

Rev. Margaret Deborah Byju
Head of Chaplaincy

A Classical Christmas

On 16th December 2023, the 'CMC Family Ensemble' performed a classical Christmas concert, 'In Dulci Jubilo – In Sweet Rejoicing'. After an opening prayer by Rev. Hminga, the story of the Nativity was musically portrayed with bible readings illustrated by classical music pieces by Handel, Schubert, Bach and Vaughn-Williams as well as versions of traditional carols arranged for the orchestra and for Carnatic classical instruments too. The college chapel was decorated with lamps that depicted the story and lit up with the relevant pieces, adding to the experience.

The CMC Family Ensemble was formed a year ago and its members are from all streams of life in CMC, including students of MBBS, Nursing and AHS, staff in all fields and walks of CMC life and family members, with their ages ranging from teenagers to senior citizens. This was their second concert. It was appreciated greatly by those who attended it.

State Level Workshop on 'Nursing Management of Dermatological Disorders'

The Departments of Medical-Surgical Nursing Specialty III and CNE & Research, College of Nursing organised a state-level workshop on 'Nursing Management of Dermatological Disorders' on 8th December, 2023. The workshop commenced with a prayer, and a total of thirty-seven delegates from both within and outside the institution were in attendance. The primary objectives of the workshop were to enhance the awareness of nurses regarding dermatological disorders, provide evidence-based nursing care, motivate them to reduce complications and improve their knowledge and skills in-home care and rehabilitation for patients with such disorders.

The sessions were covered by the faculty from the Departments of Dermatology, Dermatology Nursing College of Nursing, and College of Nursing, SMH, Ranipet. The topics covered were an overview of hand hygiene & universal precautions, dermatological emergencies, wound assessment & dressing, recognition and syndromic management of sexually transmitted infections, nursing care of patients with various dermatological disorders and psychological issues in dermatological disorders. There was also an interesting group discussion on case scenarios and hands-on sessions on medicated bath and topical application, wet wrap, skin allergen test, phototherapy and meeting nutritional needs. The Tamil Nadu Nurses and Midwives Council awarded 7 credit points for the workshop.

Founder's Day 2023

The 153rd birth anniversary of Dr. Ida S. Scudder, Founder of CMC Vellore, was celebrated on 11th December, 2023. It was a day to reflect on the courage, faith and vision of our Beloved Founder and to rededicate ourselves to the work that she so ably began. The commemoration began with a Thanksgiving Service in Chapel on 9th December, 2023. Dr. Jessie Lionel, Former Head OG Unit I gave an inspiring message on the occasion.

108 Staff who retired during the year, and 10 staff who passed away while in service were honoured for carrying on the vision of Dr. Ida and for their dedicated service to the institution. Mrs. Ebenezer Ellen Benjamin, Former Head, Maternity Nursing was the Chief Guest for the occasion and she emphasised on the uniqueness of our Institution in her address.

Mrs. Ebenezer Ellen Benjamin presented the certificates to the retired staff and to the recipients of the following special awards:

- **Dr. Thomas Koshi Award** : Mr. A. Socrates Selvakumar (Radiology)
- **Dr. K.M. Eapen Award** : Mr. R. Samuel Jayaseelan Ravikumar (P & O Services)
- **Best Hospital Attendant Award** : Mrs. Kalaiarasi Rtd. (Pharmacy)
- **Best Hospital Housekeeping Attendant Award** : Mr. Issac R. Rtd. (O.R.)
- **Dr. Ida B. Scudder Essay Competition Award** : Dr. Reenu Rajan George, Dermatology.

Mr. Jacob Jayakumar, Jr. Officer, A Block responded on behalf of the retired staff followed by vote of thanks by Mr. Arockiadass, Secretary, GSB.

Mr. A. Socrates Selvakumar
(Dr. Thomas Koshi Award)

Mr. R. Samuel Jayaseelan Ravikumar
(Dr. K.M. Eapen Award)

Mrs. Kalaiarasi
(Best Hospital Attendant Award)

Mr. R. Issac
(Best Hospital Housekeeping Attendant Award)

Dr. Reenu Rajan George
(Dr. Ida B. Scudder Essay Competition Winner Award)

Symposium organised by Department of Biochemistry

The Department of Biochemistry hosted a scientific symposium titled, 'Iron Homeostasis in Women and the Perinatal Period: from Epidemiology to Molecular Mechanisms and Clinical Trials' on 23rd and 24th November 2023. The meeting brought together eminent experts from all over the world to highlight the most recent insights in this niche area. The speakers included Alexander Drakesmith (University of Oxford, UK), Amanda Wendt (Potsdam Institute for Climate Impact, Germany), Anura Kurpad (St. John's Medical College, Bengaluru, India), Clive Petry (University of Cambridge, UK), Elizabetha Nemeth (University of California, Los Angeles [UCLA], USA), Janine Felix (Erasmus MC, The Netherlands), Martina Muckenthaler (Heidelberg University Hospital, Germany), Max Gassmann (University of Zürich, Switzerland), Michael Zimmermann (ETH, Zurich, Switzerland and University of Oxford, UK), Molly Jacob (Christian Medical College, Vellore, India), Samira Lakhani-Littleton (University of Oxford, UK) and Sant-Rayn Pasricha (The Walter and Eliza Hall Institute [WEHI] of Medical Research, Melbourne, Australia).

The symposium was held in a hybrid mode, with talks covering various areas of public health importance. They included an overview of the physiology and regulation of iron homeostasis in the body, iron kinetics in the body, and links between iron status and immunity, with a special focus on pregnancy and the perinatal period. They covered epidemiological aspects of the effects of iron exposure on the fetus, maternal determinants of iron endowment in the fetus and outcomes of pregnancy, and issues related to iron supplementation in pregnancy. The talks were targeted to an audience of researchers, clinicians, academics and trainees in medicine and biomedical sciences, with special interests in iron homeostasis in women and the peripartum period. The symposium was awarded credit points in its category by the Tamil Nadu Dr. MGR Medical University, Chennai, India.

The event also included poster presentations; the prize winners are listed below:

1st prize - Mr. Jannik Langbein, visiting research scholar from the University of Heidelberg in the Department of Biochemistry

2nd prize - Ms. Ranita De, Ph.D trainee, Department of Hematology

3rd prize - Dr. Padmanaban V, Associate Professor, Department of Biochemistry

This symposium was one of several academic activities on a collaborative research grant from the Deutscher Akademischer Austauschdienst (DAAD) (German Academic Exchange Service), awarded jointly (from 2019 to 2023) to Prof. Molly Jacob, Department of Biochemistry, CMC Vellore, India and Prof. Martina Muckenthaler, Heidelberg University Hospital, Germany. The grant supported research work in the Indian and German teams, and also enabled the exchange of trainees between the 2 institutions, resulting in fruitful collaborations and robust research links.

Wheelchair Basketball Training Programme

The Department of Physical Medicine and Rehabilitation's (PMR) Prosthetic and Orthotic Services (P&O), with the support of the International Committee of the Red Cross (ICRC), collaborated with the Wheelchair Basketball Federation of India (WBFI) to conduct a wheelchair basketball training programme on 12th December 2023, in honour of the "International Day of Persons with Disabilities." The International Committee of the Red Cross (ICRC) has been in collaboration with Prosthetic and Orthotic Services of PMR for over 27 years.

The primary aim of this programme was to propagate disability sports and promote the inclusion of persons with disabilities through sports. The programme saw the participation of nine professionals from Physiotherapy, Occupational Therapy, Prosthetics and orthotics, and fifteen wheelchair users (10 Men and 5 Women), who had received treatment in a Rehabilitation Institute. Mr. Louis George Meprath and Mr. Thayumana Subramaniam experienced coaches from the women's and men's teams; Indian Wheelchair basketball, Wheelchair Basketball Federation of India (WBFI) were present at the event. The training sessions took place in two sessions. The first session was for rehab professionals, focusing on the players' classification system basics, ergonomic principles, game violations, and foul plays. The second session was for wheelchair users, focusing on sports wheelchair propelling techniques, passing techniques, and game-planning techniques. The event ended with a friendly game on the College Campus wheelchair basketball court.

World Diabetes Day Events

In commemoration of World Diabetes Day 2023, the Department of Endocrinology, Diabetes & Metabolism organised an exhibition and poster competition titled 'Stroke and Diabetes' on 28th November 2023 at the CMC Hospital Campus on the theme, 'Access to Diabetes Care'.

The Departments of Cardiology, Ophthalmology, Nephrology, Physiotherapy, Prosthetics & Orthotics, Dietetics and Community Health Nursing, along with the Department of Endocrinology, Diabetes & Metabolism put up stalls which disseminated awareness about diabetes, its complications and the scope for its prevention. Screening for diabetes was performed for 225 patients followed by foot and eye examinations. The patients also enjoyed a puppet show and games which served to reinforce the message. A lucky draw was conducted for all registered patients and the six winners were given glucometers.

The exhibition began with a word of prayer by Rev. Rev. Samson Varghese. Dr. Rajesh, Medical Superintendent, CMC Vellore was the Chief Guest for the day. He spoke about the importance of exercise, lifestyle modification and importance of strictly following the physician's medication.

Posters were judged by Dr. Saumya Susan, Assistant Professor from PMR, Mr. Pierre Edwin, Tutor Gr-I, from Physiotherapy and Mrs. Rebecca Sumathi Bhai from Nursing.

Ms. Suganya. C, a Staff Nurse from D104, Ranipet Campus bagged the first prize while the second prize and the third prize went to Ms. Mubarak Ali, a Staff Nurse from Neuro OR and Ms. Leena. R, Staff Nurse from R Ward respectively. The consolation prizes were awarded to Mr. Rajkumar, a Social Worker from the Department of Emergency, Ms. Keerthana B, a Staff Nurse from ENT OR and Ms. Soundarya. P, Staff Nurse from the Department of Emergency, Ranipet Campus. The Department of Cardiology was awarded the first prize while the Department of Dietary and Community Nursing Department were awarded 2nd and 3rd Prizes respectively.

CME on the Foot in Diabetes organised by the Department of Endocrinology, Diabetes & Metabolism

The Department of Endocrinology, Diabetes & Metabolism hosted a CME on 'The Foot in Diabetes', at Wheeler Hall, CMC Town Campus, on 12th December 2023. Dr. Jachin Velavan, Associate Director, Missions, CMC Vellore was the Chief Guest; she graced the webinar through zoom. The proceedings began with a word of prayer from Chaplain Saramma, followed by the welcome address, delivered by Dr. Nihal Thomas, Senior Professor, Department of Endocrinology.

Dr. Zulfiqarali G. Abbas, President, of D-Foot International, the apex body for insight on the diabetic foot, was the keynote speaker on the occasion, presenting a comprehensive lecture that served to accentuate "Insights into the guidelines for infection and the diabetic foot". Dr. Prabhu Premkumar, Professor, Department of Vascular Surgery, spoke about the early diagnosis of peripheral arterial disease in diabetic foot infections. He discussed the deadly triad of neuropathy, trauma and vascular disease and the effect of their interplay on the foot in diabetes, and highlighted the principle of 'doing as much as required and as little as possible' when it comes to surgical management of vascular disease in diabetes. Dr. Emmanuel Lazarus, Associate Professor, General Surgery, Unit-I, presented an overview on "Lower limb Necrotising Fasciitis" addressing the various aspects of this tricky condition, subtle in onset, that progresses rapidly and results in high mortality. Dr. Emmanuel illustrated the importance of early intervention and approaching each case with a high index of suspicion. Dr. Felix Jebasingh, Professor, Department of Endocrinology, began his talk on "The primary prevention of foot ulcers: it's not that straightforward", by emphasising that pain is a gift; a protective sensation that is lost to diabetes. Dr. Felix discussed the set of conditions affecting the skin, bone and nails that need to be identified and meticulously managed to arrest progression to ulcer formation and ultimately amputation if left unchecked. The session ended with a presentation by Mrs. Bharathi, Charge nurse & Diabetes Educator, Department of Endocrinology, on the "Secondary prevention of ulcers: it's what you wear". Using visual aids, Mrs. Bharathi demonstrated the principles and practices that govern offloading of the diabetic foot, to improve the patient outcome.

A panel of specialists presided over the CME event, supplementing the lectures with their expert commentary: the chairpersons included Dr. Cecil Thankachan Thomas, Deputy Director (Promotion & Publicity) and Acting Head, Surgery Unit-I, Dr. Shashank Lamba, Professor and Head, Plastic Surgery Unit-I and Dr. Bobeena Rachel Chandy, Professor of Physical Medicine & Rehabilitation.

CME on the Foot in Diabetes organised by the Department of Endocrinology, Diabetes & Metabolism

15th International Short Course in Clinical Tropical Medicine

The Department of Infectious Diseases in collaboration with the Departments of Wellcome Microbiology and Clinical Microbiology and Clinical Virology hosted the 15th International Short Course in Clinical Tropical Medicine from 20th November -2nd December 2023 at IDTRC. Twenty-five students (including 8 Indians and 17 International) attended the two-week long course which offered lectures, clinical bedside session and laboratory practicals in bacteriology, virology, parasitology and mycology.

Expertise was offered by international faculty from the McGill University Canada, Haukeland University, Albert Einstein College of Medicine New York, University of Sri Jayewardenepura, Sri Lanka and NIMHANS Bangalore.

Faculty of CMC Vellore from the departments of Wellcome Microbiology, Clinical Microbiology, Virology, Child Health III, Neurology, Medicine, Dermatology, SLRTC Karigiri, CHAD and Infectious Diseases contributed actively to the learning process. This course was started in 2007 and has received tremendous appreciation from the participants and so far, 125 Indians and 235 International students have been trained in the different aspects of Tropical Medicine. The feedback has been extremely positive and we hope to continue this programme in the following years with active participation from the CMC faculty.

December 24 - 30, 2023

Laurels and Recognitions

- **Dr. Lalee Varghese**, Professor, won the Second Position in the Dr. IS Gupta Senior Consultant Award at “RHINOCON 2023 - 34th Annual Meeting of All India Rhinology Society”, Sardar Patel Medical College, Bikaner, which was held from 14th to 18th December, 2023.
- **Mrs. Rebecca Sumathi Bai**, Professor & Head, Unit of Medical Surgical Nursing Speciality – VII, was awarded “Seghal Oration Award 2023” by Society of Indian Neurosciences Nurses during 43rd National Annual Conference of SINNCON 2023 at Bhubaneshwar.

Obituaries

- **Dr. Bonam Wesley** (MBBS batch of 1972), passed away on 17th December, 2023. Dr Bonam Wesley was born on 10th October 1951. His earlier education was in the mission schools. Dr. Wesley excelled both in academics and sports. He was awarded “The President Scout Certificate” by former president of India, Dr. S Radhakrishnan in 1964. He graduated (B.Sc in Zoology) before he joined MBBS in Christian Medical College, Vellore in 1972.

After medical graduation, Dr. Wesley joined Mary Lott Lyles (MLL) Hospital, Madanapalle in 1981. There he worked with Dr. Vander Arde who trained him as a surgeon. He then took over as the Medical Superintendent of CSI Campbell Hospital, Jammalamadugu at a very difficult time. Depending on God, he worked hard despite the difficulties he faced and placed the institution on a firm footing. In 1990, he took over as Director of Arogyavaram Medical Centre (AMC), Arogyavaram, which initially was a sanatorium for patients with tuberculosis.

Dr. Wesley was a multifaceted Surgeon adept at General Surgery, Obstetric and Gynaecological surgery and ENT. He also took care of patients with medical problems. He was kind and compassionate to his patients.

In all the three mission hospitals, he strove to increase the range of services provided and to improve the quality of care. He led by example. He was doing on call duties throughout his service. He would take on difficult obstetric cases referred to mission hospital and manage them efficiently. He was the quintessential, mission hospital doctor able to manage most cases that presented to him, through the training he received from his Alma Mater and later the surgical training he received at MLL Hospital.

At a time when polio residual paralysis cases were plenty, Dr Wesley in collaboration with the Orthopaedic Department of CMC, Vellore held polio camps. Through these camps many patients underwent reconstructive surgery and were fitted with calipers to make them ambulant. His organizational skills in conducting these camps from advertisement to postoperative care were exceptional.

During his tenure at Arogyavaram Medical Centre he worked tirelessly for the cause of tuberculosis. While the main hospital functioned as a secondary and tertiary care for management of tuberculosis, he strengthened the DOTS program for tuberculosis in the field. He initiated a number of new strategies and innovative approaches for control of tuberculosis in the communities around. He placed AMC back on the map of India as a center of excellence for care of tuberculosis. He provided leadership in this regard influencing policy both at the state and national level. He received many awards within and outside the country for his and AMC's work in tuberculosis.

At AMC, he initiated in collaboration with NACO, SAMARTH project (Strengthen the Ability to Manage and Respond effectively to HIV / AIDS) which is a training program for Doctors, Nurses & Pastors in HIV / AIDS. This programme takes care of a desperate need for help of HIV/AIDS patients in Chittoor District and surrounding backward areas. AMC also runs an Ophthalmology outreach programme and home for polio affected children and school for deaf mute children. The rehabilitation center employs patients, in farming, carpentry, tailoring and handloom weaving.

He was an active member of Christian Medical Association of India (CMAI) serving as Chair-person of its Doctors' Association and on various committees strengthening the work of the organization.

At AMC he added 'College of Nursing' while continuing to run the Diploma in Nursing program. This has helped in care of patients and also contributed to the trained pool of nursing professionals in the country.

He established a Molecular Biology Laboratory (BSL -2) which does research in molecular aspects of tuberculosis both hospital based and community based. The laboratory works in collaboration with Cornell University, USA. The laboratory has already published many papers in peer reviewed journals.

During his student days, Dr Wesley represented CMC, Vellore and Vellore Division in hockey, playing as a goal keeper. He won many tournaments with the College team. He is a good chess player.

Among the many awards he received the following were prominent

- Certificate for Meritorious Service' in 2008 awarded by his Alma Mater for those working in the mission field.
- Awarded with The Certificate of Medical Excellence in Rural India, by Association of College of Chest Physicians, by former President Zail Singh in the year 1992.
- Paul Harris Fellow – in the year 1996 by Rotary International.
- Award with "Prominent Non – Profit Professional Executive in India" by the Global Network, Singapore in the year 2000.
- Awarded with "Rajiv Gandhi Excellency Award" in the field of Medical Sciences in the year 2001.

Mrs. Sheila Wesley, his dear wife is the Principal of Nursing College in AMC. His children - Vincent works as a hospital Administrator, Richard is a Medical doctor and Christina, heads the Molecular Biology Laboratory.

Dr. Wesley was a devout, committed Christian who had completely surrendered to the will of God, serving Him throughout his life. He was a simple, unassuming, humble kind, compassionate person, who had a powerful influence and impact on bringing up three mission hospitals, who was a blessing to many patients and who to his Master is a "Well done thou good and faithful servant".

The contact details of his daughter Christina is given below for anyone who would like to get in touch with the family.

B. Christina, Mobile: +91-95027-18948 Email: bcj34@cornell.edu

Our thoughts and prayers are with the bereaved members of the family at this time.

• **Mrs. Beulah Rose Mary T**, mother of Mr. Eliazer J, Sr. MRT Gr.III, Medical Records Department, passed away on 20th December, 2023. Let us uphold her sons Mr. Eliazer and Mr. Edwin Immanuel, X Ray Technician in CMC, daughter Ms. Angel Samadhanam and all the bereaved and extended family members.

• **Mr. V. N. Radhakrishnan**, retired Sr. Secretary, Anaesthesia Department, passed away on 22nd December, 2023. Let us uphold his wife Mrs. Kasthuri Radhakrishnan, son Mr. Saravanan, daughters Mrs. Kalaiselvi, Mrs. Manimegalai and all the bereaved members of the family in our prayer.

Notice

American Heart Association – International Training Centre (CMC, Vellore) American Heart Association – Basic Life Support Course (AHA-BLS) Provider level course

American Heart Association -Basic Life Support (AHA-BLS) provider level course will be held on the **11th January 2024 at the Jacob Chandy Hall, Paul Brand Building, CMC Vellore.** This one day course is designed for healthcare providers (Doctors, Nurses and Paramedics) and the curriculum consists of video based, interactive lectures and skills training in Cardio Pulmonary Resuscitation (CPR), use of Automated External Defibrillator and relieve choking in a safe, timely and effective manner to **all ages – Adult, Pediatric and Infants.** The number of participants is strictly restricted to 18 per course as per AHA guidelines. **The registration fee is Rs.3,500/-** (cost of study materials included) and the last date for registration is **2nd January 2024.** For registrations, Please contact Mrs.Nitha Cathuan or Mr. Ganesh, Paediatric ICU (Phone No.0416-228-3366).

Admission Notice

Applications for **RUHSA Community College** for the **JANUARY 2024 batch** is open. Last date of submission of application is **30-12-2023.** Kindly encourage eligible men and women candidates to apply for all courses. The proposed courses are offered in association with ICRDCE, Chennai and recognized by NSDC-Non-Funding Skill Certification Scheme, Government of India.

Certificate Courses:

- Four-Wheeler Service Technician
- Field Technician Air Conditioner
- Field Technician Refrigerator
- Electrical Technician
- Field Technician – Computing & Peripherals
- Two-wheeler Service Technician.
- Self Employed Tailor

RUHSA Certificate Courses

- Fashion Designing
- Short skills training for income generation activities and entrepreneurship, e.g. crafts, jam making, fabric dyeing, accounting for small business etc.

Education Criteria : 8th completed.

Age : Completed 17 years for Certificate courses. Younger candidates will be accepted in selected courses and will receive RUHSA Certificate.

Application fee : Rs.15/- payable at RUHSA.

For details kindly Contact: Phone: 9626217667 / 9442511982 / 8300031305 / 8300031374

Situations Vacant

1. Senior Resident / Assistant Professor with NMC recognised Postgraduate degree in MS General Surgery for the Department of General Surgery

Experience : Should have at least one year teaching experience as (Asst. Professor) in any NMC recognised teaching institution for applying Assistant Professor post. Salary : As per institutional rules.

Accommodation provided (Partly furnished, Depending on availability).

2. Assistant Professor with DM Neuroanaesthesiology for the Department of Neuro Anaesthesia

Salary : As per institutional rules. Accommodation provided (Subject to availability).

3. Registrar (Non-PG) with MBBS for the Department of RUHSA

Salary : As per institutional rules. Accommodation provided (Subject to availability).

4. Senior Resident Gr.III with NMC recognised Postgraduate degree in MD (Palliative Medicine / Anaesthesiology / Radiation Oncology) for the Department of Palliative Medicine

Salary : As per institutional rules.

Accommodation provided (Partly furnished, Depending on availability).

Applications are to be done only through the online application system.

Please log on to <https://www.cmch-vellore.edu/JobVacancy.aspx?jtype=ALL> Link : "Vacancies".

Hard Copies and emails will not be accepted.

Applications will close by **January 06, 2024** for Items 1, 2, 3 and 4.

5. Medical Officer for the Department of LCECU

Job Code : 1495

Qualification : Post MBBS.

Preference will be given to those who have experience in Palliative Care and Cervical cancer screening.

Salary : As per institutional rules.

Mode of Appointment : Project Mode. Accommodation not Provided.

Applications to be done only through online application system.

Please log on to <http://www.cmch-vellore.edu> Link : "Vacancies".

Hard Copies and emails will not be accepted.

Applications will close by **January 06, 2024** for Item 5.

6. Data Entry Operator (Project) for Medical ICU

Qualifications : Any Graduate. Age Limit : 30 years and below.

Consolidated Salary : As per institutional norms.

Please log on to <http://www.cmch-vellore.edu/> Link : "Vacancies". Icon "Data Entry Operator (Project)".

Apply on or before **December 30, 2023** for Item 6.

Applications should be made online. Applications through other job portals will not be considered.

7. Field Worker (Project) for Gynaecologic Oncology

Qualifications : Plus Two. Age Limit : 30 years and below.

Consolidated Salary : As per institutional norms.

Please log on to <http://www.cmch-vellore.edu/> Link : "Vacancies". Icon "Field Worker (Project)".

Apply on or before **December 30, 2023** for Item 7.

Applications should be made online. Applications through other job portals will not be considered.
